Believing the cash or ready pay system to be the cheapest and eventually the most profitable for the buyer as well as the seller, that principle will be adopted and strictly adhered to.—He does not wish to "puff" and boast of his long residence and extensive acquaintance in New York—great facilities and extraordinary abilities in purchasing goods, &c.: or *even say he* will sell *cheaper* than any body else—but he does wish to say, his motto being "live and let live," and on the principle that a "nimble sixpence is better than a slow shilling," that he will sell "*as cheap as the cheapest,*" the truth of which, he pledges himself to demonstrate to the entire satisfaction of every one who may favor him with a call. may22

THE MUTUAL LIFE INSURANCE COPANY of New-York, No 44 Wall street —

This Company, since its organization on the 1st February, 1843 (two years) has issued 1200 policies. The total am't received for premiums and interest on investments, $121,687; yielding a nett capital of $97 273, after paying all its losses and expenses. This accumulated capital is rapidly increasing by the 2d and 3d years' premiums now becoming due, and by a vastly extended and growing business. The eminent success and prosperity of this institution has placed it on a strong position. Its capital and resources are now so ample as to inspire confidence in its ability, and insure safety to its members.

The company is organized upon the most improved principles of Mutual Life Insurance, and offers very great advantages to whole Life Policies, or insurances for short periods, if continued till death; without incurring any personal responsibilities. At the expiration of every five years from the date of the first policy, (which will make the first division of profits be on the 1st of February, 1848) the whole of the profits will be divided among the insured in proportion to the amount of premiums paid by them, and will remain at their credit as an accumulating fund, payable at the decease of the life insured.

The progress of this institution thus far gives strong grounds for anticipating large dividends to its members at the stated periodical settlement, and equal to those of the most distinguished and successful Mutual Companies in Great Britain, where it is well known immense profits have been made.

The importance and utility of Life Insurance is becoming a matter of deep interest with all classes of the community, and is now occupying much of public attention, and beginning to make favorable impressions as to the great benefits to be derived from it; as the published monthly statement of lives insured by the company conclusively show.

Merchants and traders, officers, civil, military and naval; clergymen and professional men generally; clerks, and persons in every station in society, may secure to their families in the event of death, a comfortable support, and independence, by making, with this institution, a small annual investment for an insurance on their lives.

Pamphlets, explaining the principles, and showing the advantages of Life Insurance, with the rates of premiums and forms of application, may be obtained at the office of this company, No. 44 Wall street, or any of its Agents.
